According to CBSA website, as of 11:00 Coutts border has resumed operations and traffic is able to proceed northbound and southbound. This was also confirmed on CBSA social media.

At 9:09 hrs, February 15, department staff in the South Region reported approximately 5 trucks on the side of the road at Coutts with all lanes open.

At 8:45 hrs, February 15, Preliminary reports from JSG indicate the convoy appears to dispersing, further reports will be available as the situation unfolds.

At 16:30 hrs, February 14, JSG communicated that Alberta RCMP updated their announcement of arrests made at Coutts Border Blockade. Additional individuals have been arrested in connection to the Coutts border blockade.

As of 14:00 hrs, February 14, RCMP reported that the blockade remained in place but the number of participants had reduced significantly by as much as 170 vehicles.

As of 12:45 hrs, February 14, RCMP had issued a news release communicating arrest of a small organized group with access to firearms and ammunition at Coutts.

Milk River Blockade at Highway 4 and 501S/501N Intersections

- At 9:09 hrs, February 15, Department staff in the South Region reported that RCMP checkpoints are still in place at Highway 4 South entrance at Milk River, and that it appears that protestors are packing up and leaving.
- *As of 9:00 hrs, February 14, JSG communicated that RCMP/Sheriffs have continued enforcement activities and that RCMP disabled three excavators so they can not be moved or used for any reason.*
- *The airspace restrictions above Milk River, AB and above Coutts, AB has been extended until February 16, 2022 (confirmed).*
- *RCMP requested speed limit reductions remain in force on Highway 4 at Milk River. Speeds have been changed to 80km/h then 50km/h as drivers approach the blockade.*

CBSA and Reported Border Crossing Hours of Operation:

- Alberta has 6 land border ports of entry, of which five are open (one is seasonal) and handling commercial and passenger traffic.
 - Carriers can also cross at other ports in Saskatchewan and BC.
 - Commercial carriers are encouraged to check with CBSA website for entry requirements and hours of operation.

- Alberta continues to work with CBSA to ensure efficient movement of goods including livestock and agricultural products.
- Trucking companies should continue to check with the CBSA/USCBP on particular load requirements.
- CBSA and USCBP continue to indicate they are prepared to adjust hours of operation at border crossings if needed, as volumes warrant.
 - As of February 15, there continue to be no reported delays at other ports.
- Over the weekend of February 12 and 13, CBSA was working towards a solution to provide all services at an alternate port and has engaged their partners in the Canadian Food Inspection Agency (CFIA) and Agriculture on the potential to move inspection services inland.
 - CBSA is accommodating regular commercial traffic at other ports.
 - CFIA oversees inspection/certification of agricultural and livestock imports.
 - As indicated below, livestock shipments coming into Canada can still be inspected at Sweetgrass, but must then divert to another port to enter Canada, while Coutts remains closed.
 - CBSA is working with these partners to try and establish all of these services at another port, so those shipments do not need to go to Sweetgrass first. This requires those other agencies to move inspectors.
- As of the evening of February 14, CBSA was no longer seeking to establish a designated port elsewhere.
 - Both borders have instituted similar processes to allow the continued movement of goods requiring inspection, without the relocation of operations.

Updates for Movement of Agricultural Products (e.g. boxed meat) and Livestock from CBSA/CFIA and USCBP:

Southbound into US:

- For now, because carriers may be in transit already, CBSA has confirmed that USCBP will facilitate clearance of livestock at any of the other four operational ports *in Alberta (Wildhorse, Aden, Carway and Del Bonita)* but carriers will have to *divert to Sweetgrass* which has USDA and vet services.
- As well, for now, CBSA has confirmed that boxed meat can cross into the US at any port of entry in Idaho and Montana however, carriers will have to route to Sweetgrass for inspection.
- Alberta Cattle Feeders Association has requested an exemption from Transport Canada to the Hours of Service Regulation to accommodate carriers that are moving products through alternate ports. Transport Canada is prioritizing the request. *With Coutts open and normal traffic resuming, this request may no longer be required.*
